

June 25, 2009

Dear Student:

This letter is to inform you of your academic status at Porterville College. **Per Board Policy 4C5A** you have been placed on **disqualification for enrollment**. A student who has been placed on academic probation for three (3) consecutive semesters shall be disqualified for admission to classes the following semester, unless during the last semester of enrollment, the student earned a grade point average of 2.0 or higher, in which case the student shall be placed on continued probation. For purposes of academic standing only, summer session is the equivalent of a semester. A student who is disqualified may be conditionally readmitted upon petition to the College President or designee following campus procedures. As a result of this status your registration for the **fall 2009** term is blocked.

To be considered for readmission, you must meet with a counselor to complete and submit a Petition for Readmission. Your readmission will be considered by the College Vice President or designee.

If you are readmitted, the following must be fulfilled:

- You are limited to a maximum unit load of seven (7) units. If you are already registered in more than seven (7) units for fall 2009, it is your responsibility to schedule an appointment with your counselor during the first month of the semester to discuss the unit limitation.
- Your counselor will approve your schedule of classes. If during the fall 2009 term you achieve a grade point average of 2.0 or higher, in which case you shall be placed on continued probation.
- You will be required to enroll in a class organized to meet the needs of students who have serious academic problems (See schedule displayed below).
- You are required to schedule regular appointments with your counselor to discuss academic progress, plan for subsequent semesters and get approval for any change in your class schedule.
- Your registration for a subsequent semester is blocked until grades for the current term are submitted and you have counselor approval for re-enrolling.

If you are readmitted under "**disqualified status**", you are required to achieve a 2.0 GPA for the current term in order to be registered for a subsequent semester. *Failure to achieve these standards for Academic Progress will mean that you will only be considered for readmission after again going through the Petition for Readmission procedure.*
